

STREAM *Magic*™

Explore, Experiment, Experience, Excel...

STREAM Magic™ excites interest in children in an age when science is as important as reading, writing and arithmetic.

STREAM Magic™ creates an environment where children enjoy learning science in an interactive, fun, informative and challenging ways. It prepares them as explorers and visionaries of the future.

The program will enhance positive experience that K-12 learners have with science by allowing them to explore their own ideas and interests.
